WESTWIND CORKSCREW MINING
4099 TAMIAMI TRAIL
SUITE 305
NAPLES, FL 33940

Dear Permittee:

Subject: Reminder Letter
Annual Above Ground Impoundment Inspection/Certification Program
Permit No. 36-03663-P, Application No. 020916-18
CORKSCREW MINING IPD
Lee County, S22,23/T46S/R27E

This letter is to remind you that an Annual Above Ground Impoundment Inspection/Certification report must be completed in March of each year pursuant to a special condition of the subject permit and Florida Statute 373.423(3).

This requires an inspection of each impoundment; for some facilities, this may involve several AGI reports. Enclosed please find a spreadsheet which will accommodate up to ten AGI's on one form. You can obtain an electronic version of this spreadsheet by contacting kmadams@sfwmd.gov. This annual inspection and certification must be directed, prepared, signed and sealed by a Florida licensed Professional Engineer. The report must certify that the subject dam(s), reservoir(s), impoundment(s) and appurtenant work or works are in compliance with this District's permit requirements and are adequate to protect the public health and safety and the natural resources of the state.

We request that you submit your Annual Inspection Report(s) for each AGI to our office upon completion and no later than March 31, 2010.

In addition, we would like to encourage you to use the District eSubmittal and eCompliance capabilities. By using these tools you are ensured that your inspection is received by the due date. Please use this link (www.sfwmd.gov/lwc) if you are new to this option as this will provide you with step by step directions on how to obtain an account, how to submit your documents and how to run a search or report using our new electronic file option.

Permittee
